najmaabdirezak@gmail.com | +252634846235 | Hargeisa, WO 00000 | WWW: <https://github.com/najma-se>

## Summary

---

Highly motivated Software Engineering student with hands-on experience in building web, desktop, and browser-based applications. Skilled in Python (Django), ASP.NET (C#), Java, PHP, and JavaScript. Strong foundation in full-stack development, eager to apply skills in real-world projects and contribute to a software development team. Outgoing student pursuing flexible part-time employment.

## Technical Skills

---

- Python
- C#
- Java
- JavaScript
- PHP
- HTML
- CSS
- Django
- ASP.NET Web Forms
- Bootstrap
- Chrome Extensions
- SQLite
- MySQL
- SQLServer
- OOP
- Git/GitHub
- Basic deployment
- Database management
- Version control
- Dependable and responsible
- Communication
- Web programming

## Education

---

Abaarso Tech University | Hargeisa, Somaliland  
**Bachelor's** in Software Engineering  
10/2025  
In Progress

## Additional Information

---

Strong problem-solving skills and eager to learn modern frameworks., Actively building a portfolio of full-stack applications., Open to software development internships to gain professional experience.

## Projects

---

**Hospital appointment system, Django/Python:** built a web-based system to manage patient appointments Implemented user authentication, appointment booking, and admin dashboard. Ensured the prevention of double booking and smooth database operations.

**Restaurant Management System, ASP.NET/C#:** Developed a desktop application for managing orders, tables, and billing. Applied object-oriented programming concepts to structure code efficiently

**TabSaver Chrome Extension, JavaScript:** Created a Chrome extension to save and organize browser tabs for users. Implemented an interactive UI with storage and retrieval of user data University

**Online Admission System, PHP:** Developed a web-based application for student registrations and admissions. Handled database integration and form validation for seamless user experience.

**Student Management Desktop App, Python:** Designed a Python GUI application to manage student records, including CRUD operations.
