Profile

Junior Software Developer and Software Engineering student with strong backend and full-stack development experience. Experienced in building real-world applications using Django and ASP.NET. Hackathon winner with proven ability to collaborate, solve problems, and deliver functional solutions under time pressure. Seeking an entry-level or junior software development role.

Education

- Bachelor of Software Engineering

Jul 2026
- Abaarso Tech University, Hargeisa, Somaliland
 - In Progress

Experience

- Software Developer (Team Project)

Dec 2025
- Joint Abaarso Tech University × Soltelco, Hargeisa
 - Designed and developed an internal employee portal during a competitive hackathon
 - Implemented backend logic, data handling, and core application features
 - Collaborated with a cross-functional team to deliver a complete solution within hackathon time constraints.
 - Project selected as the winning solution based on functionality, creativity, and teamwork
 - Conducted code reviews and implemented best practices to maintain high-quality code standards.

Projects

- Hospital Appointment Management System

Django, Python

 - Built a web-based system for patient appointment booking and administration
 - Implemented authentication, booking workflows, and admin dashboard
 - Ensured data integrity and prevented double booking
- Restaurant Management System

ASP.NET, C#

 - Developed a web application for managing orders, tables, and billing
- BookShare Mobile App

Dart, Flutter, Firebase

 - Community Library App - a mobile app where users can share books they own with others in their area.
- TabSaver Chrome Extension

JavaScript

 - Created a Chrome extension to save and organize browser tabs using persistent storage
